Public Works Director Derek Gajdos introduced Lara Zawaideh of HDR. Lara presented on communications to date, available CCR data to date, and available PFAS data to date for Harbor Island. Once a sample is taken from the Harbor Island testing site, it takes months for the data to be sent to labs, validated, mapped, and submitted to EGLE for review. Once that process is complete, the data will be available on www.grandhaven.org/renew-harbor-island. HDR has meetings scheduled through September for more updates on Harbor Island.
