1. Beyond the Pier Waterfront Master Plan Final Draft and RFQ Review

- Maleah Rakestraw, Landscape & Urban Designer at Williams and Works

The updated draft plan and plan highlights page had been available on the project and City's website for over a month. The Planning Commission, Historic Conservation District Commission, and the MSDDA Board endorsed the plan. One condition received was from the Historic Conservation District Commission to keep the playground by the train as-is.

Comments made during discussion:

- Two-story buildings would be allowed along the waterfront by right only at the north end so they would not interfere with the viewshed. Council was in favor of the use of one-story buildings.
- The sidewalks near Waterfront Stadium would be wide enough to allow access by buses for staging since the neighboring lot would be decreased in size. The Depot would also be used as part of the stadium.
- More parking for the proposed market would create more parking for charter boat parking.
- More waterfront and also on-street parking was suggested due to the need for more parking in the plan.
- No residential spaces were planned for along the waterfront.
