New business:

Land leases: Presentation of land lease option for private built box hangars- Earle Bares

Review of details of land lease.

-Long list of individuals wanting a hangar.

-Option needed for individuals to build their own hangar.

-Report includes requirements to lease land by other airports.

-Master airport plan details where we may build private hangars.

-FAA expects us to be good stewards and use the land at its best use.

-Lease term should coincide with FAA's stewardship expectations

-A majority of airports our size and in West Michigan offer land leases.

- It makes sense to land lease land for private entities to build hangars. It is very cost effective.
- Leases must not contain terms more than 50 years.
- Upkeep may not be included in the base land lease.
- Establish land lease minimums
- Cost for utilities -approx. \$50k
- Possible locations for land leases depicted by the airport manager in his report.

Discussion of camping with aircraft initiated by Tricia.

Tricia departs, (excused), 7:07 pm, no quorum from this point forward. Quorum is not required unless decisions to be made.

Old Business: None

Airport manager report: Earle Bares

Activity

Activity and fuel sales are slowly increasing, YTD above

Design stage of N/S runway has begun and is under contract.

Surveyors to come shortly and borings of runway have been taken.

Projects

Construction of new hangars: Planning on tear down of "C" row. Build of T-hangars pending our review and decision.

Summer airport maintenance items underway.

MDOT Aero agrees with our opinion to move forward with runway rehabilitation before taxiway rehab. We need to add the taxiway rehabilitation to our capital improvement plan.

Additional money may be available to use on building hangars.
